OU Gets Final Warning On Parking

It was ALMOST all over this week.

Students at the University of Omaha ALMOST lost the use of 160 "precious, free" parking spaces in the west lot of the First Christian Church, 6630 Dodge Street.

The loss almost occurred because of student failure to heed several "No Parking" signs posted in the east lot and driveways on the church grounds.

Rev. D. Wright Lunsford, pastor of the church, told the Gateway this week, if the violations did not cease he would be forced to take "drastic measures."

Rev. Lunsford said the drastic measures would include revocation of ALL student parking privileges. In addition to the revocation of parking spaces, Rev. Lunsford said he would issue orders to his custodian to have all OU cars towed away by the Omaha Police.

Nearly two months ago more than 50 cars were towed from the parking lot of St. Margaret Mary's Catholic Church, 61st and Dodge Streets, due to a similar offense. According to police records the expense incurred to students in this incident totaled over six hundred dollars.

Reverend Lunsford said he would give OU students one last chance to cooperate and save the parking spaces. "However," he said, "this is the LAST warning."

Six weeks ago Reverend Lunsford issued a warning published in the Gateway. At that time it was noted no parking was permitted in the east lot or the driveways. Within a week no parking signs were erected in the "off limits" area.

"We had excellent co-operation for about two weeks," Reverend Lunsford said, "but then a few persons started to park in the drives and east lot again". He said each week the situation has gotten progressively worse until he finally issued his last warning Monday.

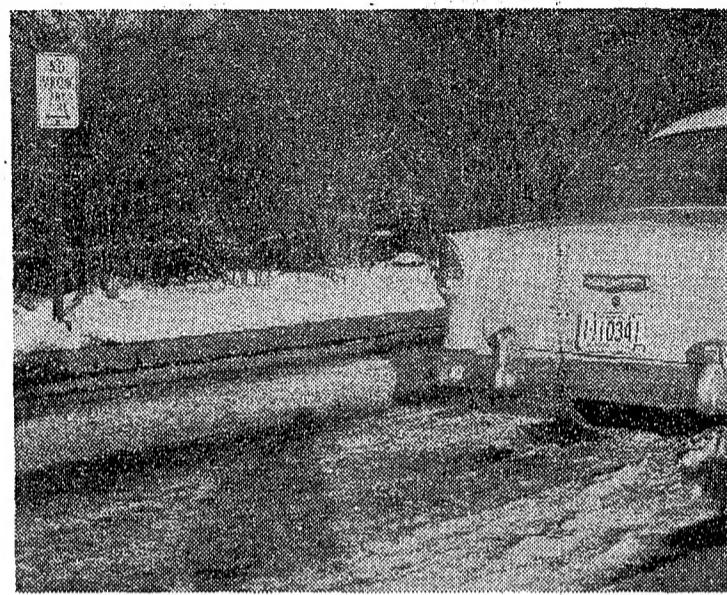

Greene Repeats Taking Top Honor

DeReef Greene, of Omaha University, took top honors in original oratory at last week's speech tournament at Wayne State College, Wayne, Nebr. His victory was a repeat performance of a similar triumph at the November 20-21 tournament at Bradley University in Peoria, Ill.

Lyndall Williamson, placed third in original oratory at the Wayne tournament. Both Greene and Williamson received Superior ratings in the discussion category. Steve Boguchwal came home with an Excellent rating in extemporaneous speaking.

In Class A division debates, the Greene-Boguchwal team won 2 and lost 3.

The four teams of OU debaters who journeyed to the University of Arkansas in Fayette, Ark., last week did not fare so well. They were snowed-in at Butler, Mo. on Thursday evening and did not arrive at the tournament in time to compete in individual events.

Bail Honored; SC Renamed

Omaha University's Student Center officially became known as the Milo Bail Student Center Tuesday afternoon as students, faculty and staff members stood in freezing temperatures to honor the retiring president.

Among those who spoke at the half-hour ceremony was Thomas Quinlan, who was president of the University Board of Regents during planning and construction stages of the \$1,400,000 structure. He commended Dr. Bail "for breathing life into OU."

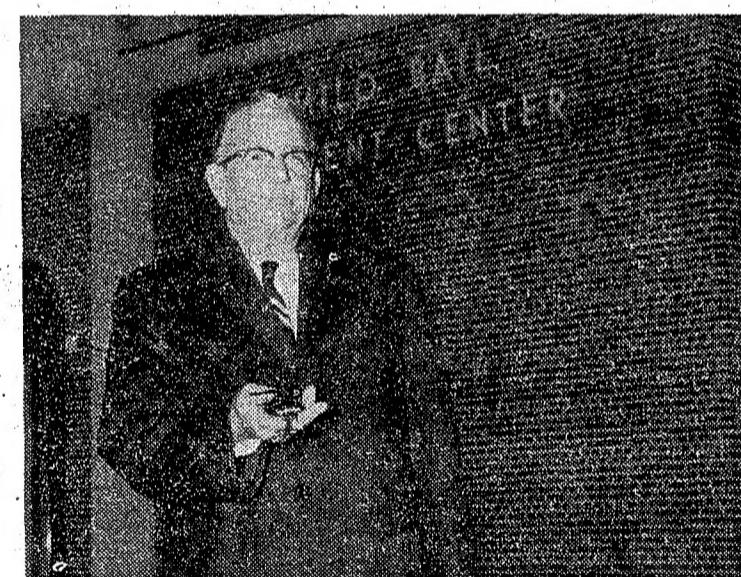

Rich Tompsett, student council president, said Dr. Bail was the fuel for the torch that lights academic lives at the institution.

He then presented the honoree with a gold key to the Center.

"The building named after Milo Bail follows the philosophy that the Center aids a student's cultural life," said Varro Rhodes, board president. He said Dr. Bail is not a brick and mortar president, "but is responsible for Omaha U's Physical growth."

After watching the unveiling of the Center's new name, President Bail thanked the audience for the honor.

"Men seldom have a building named after them," he said, "but to have a structure named for them while they are still alive is a higher honor."

Dr. Bail . . . Holds Student Center Key

Final Examination Schedule

Examinations for all late afternoon and evening CAE classes will be held at their regularly scheduled class meeting time, Monday, Jan. 25 through Friday, Jan. 29.

Bail Pleads For Overall Study Of College Program

By Dick Smith

University of Omaha President Dr. Milo Bail this week called for an overall study of the State of Nebraska's educational facilities to be financed by an appropriation from the 1965 Unicameral.

In a meeting with OU's Board of Regents and state senators from the Omaha area, Dr. Bail said, "In order to update Nebraska's educational facilities, the state must include provisions for an overall master plan for the future."

Questions and Answers

He said the study is necessary if state educators are to have the answers to many questions now facing them. He said the main questions were:

—How many people will higher education have to serve in the future?"

—Where are these people located?"

—What are their educational needs?"

Dr. Bail cited the fact colleges are no longer occupied with the educating persons in the age group of 17 to 22. "We now have to think about those from 18 to 80," he said.

He went on to say, "We are not facing an immediate population explosion that we cannot handle if we are prepared". He said reports show colleges will only have to cope with about 800 more persons per year as compared with other studies showing a much higher increase.

Dr. Bail said we can prepare for the future by hiring more faculty members. "Not a lot," he said, "since we are interested in quality not quantity".

Who Will Do It?

In regard to who would compile the proposed study Dr. Bail said the state could call on the resources of the Nebraska Association of Colleges. "But," he said, "don't take their word only. Be sure some laymen are involved in the work."

Dr. Bail emphasized the study should include all 21 educational institutions in the state.

State Senator George Syas questioned Dr. Bail if he thought it was right for small towns in Nebraska to have junior colleges.

Dr. Bail said, "This study will answer that question. It (the study) will keep us from duplicating state educational facilities."

State Senator Clifton Batchelder then asked Dr. Bail if OU wanted or if the university needed state aid.

OU No Stepchild

Dr. Bail said the Board of Regents at OU would have to meet to answer Mr. Batchelder's question. He added, "Omaha University does not want to be a step child of the University of Nebraska. We would accept state aid only if the university (OU) could retain its autonomy". Dr. Bail's statement was echoed by OU regent's president Varro Rhodes.

Senator Henry F. Pederson asked Mr. Rhodes if the people of Omaha indicated they wanted to loose their university's au-

Editorial Voice

The 19th annual Institute of World Affairs for 1964 wound up its yearly session on a pleasing note, but yet a sad one.

Pleasant was the quality of speakers which were once again excellent. Sad is the mediocre attendance figures and apathetic attitude students apparently possess toward this fine free program.

The Institute of World Affairs presented six speakers ranging from International Court Justice Sir Muhammad Zafrulla Khan, who spoke on South Asia, to Kermit Roosevelt, former Middle East specialist in the CIA who is now a vice-president of International Affairs for the Gulf Oil Corporation.

Excellent Quality

Both men gave excellent lectures on what are considered "hot" topics of the world today. This is just a sample of the guest speakers. The four other men on the program were of the same general fine quality. Yet, student attendance was extremely poor, at best.

Dean William T. Utley, Director of "The Institute of World Affairs," and serving as moderator for the series, said attendance runs in four categories: the townspeople, who make up the primary part of the audience; Bootstrappers, that make up a sizeable portion of the audience; a number of high school students and; last and least, Omaha University students.

Attendance

According to Dean Utley, the problem may be one of communication to the students. Perhaps. Attendance for the series generally runs from 500 to 550. This year, however, attendance fell off to between 400 and 500. For an institution that has an enrollment of nearly 4,000 full-time students, and approximately 3,000 part-timers, well, the figures speak for themselves.

"The Best We Can"

Fees for speakers range from \$350 to \$1000 so they don't come cheap. Dean Utley said "we try to present the best we can for the money." And, in this writer's opinion after covering these affairs for three years, the best is darn good.

Their ability to communicate with their audience has been excellent and comprehension very high. They sometimes take a controversial position in that they represent a position sometimes different from what the American public is used to, but, these men thoroughly know their subject field and their positions in their respective fields are of high stature.

Who Cares

But, apparently these high qualifications are not enough for a majority of the students on this campus or they don't care.

The 20th annual Institute of World Affairs will resume once again in mid-October next fall with another fine fare of speakers to be presented for those who do care. As in the past, admission will be an activity card.

A. F. Recruiting Team Visits OU

The USAF officers visitation team from Omaha interviewed seniors interested in the Air Force Officer Training School last Monday and Tuesday in the game room of the Student Center here at OU.

The purpose of the visitation was to talk to interested college students, male and female, in order to promote qualified applicants for OTS.

Master Sgt. Ralph W. Bates, recruiting service representative, said since July he has visited about 20 universities from South Dakota, Nebraska, Iowa, Missouri and Minnesota. Although no seniors signed up at this visitation, Bates stated that in other universities ten to fifteen per cent of the seniors have joined the program.

Sgt. Bates is also a student at OU working towards a masters degree in history.

SC Xmas Concert Set

The Omaha University Concert Band will present a 45-minute program, consisting of traditional Christmas Music, in the Student Center Ballroom on December 14 at 11:30 a.m.

The judging of entries to the Phi Mu Alpha Carol Contest will take place in the Ballroom at 3:30 p.m. Everyone is cordially invited to attend both programs.

Music Dept. Concert Scheduled Sunday

Students of the University of Omaha music department will present a woodwind ensemble concert in the Conference Center Auditorium, Sunday at 7:30 p.m.

The concert is to feature a four-part movement for a woodwind quintet by Dr. James Peterson, head of the music department. The work is entitled "Woodwind Quintet".

Mr. Kermit Peters, assistant professor of music, will conduct the ensemble. An arrangement by Mr. Peters, "Suite of Carols" is to be featured on the program too.

An arrangement of the "Anteante" from the "Horn Concerto" of Mozart by Mr. Robert Tilton, French horn player and student of the University, will become the first composition by a student to be played at the annual woodwind concert.

OU Seniors Attend Annual Luncheon Given By Rotary

More than 150 Omaha University seniors attended the annual Senior Executive day luncheon Tuesday in the Student Center Ballroom.

Guest speaker for the Rotary Club sponsored affair was S. M. (Nick) Newman, president of Hinky Dinky Super Markets.

Newman told the seniors, the purpose of the luncheon was "to bridge the gap between business man and the college student."

He said, "We are here today to acquaint the young men and women of the university with the capitalistic system".

Each of the 25 Rotarians, including OU's president Dr. Milo Bail, were assigned to a table, with a faculty advisor, to answer questions pertaining to their businesses.

Newman told the students when they are fresh out of college they are the "raw materials" of the nations industries. He added, industry must train these new graduates. "You have just begun to learn," he said, "We must give you experience that cannot be taught in textbooks".

The firms represented in this year's executive day luncheon were:

Cummins Mid-West Co., Dunbar-Peterson Insurance Agency, Hannington, Durham and Richardson, Inc., Hinky Dinky Super Markets, International Business Machines, Industrial Chemical Laboratories and McCollister Grease and Oil Company.

McMartin Industries, Paul A. Willsie Co., Northern Natural Gas Co. and Meredith Wow, Inc.

T. H. Maenner Co., Mutual of Omaha, Northwestern Bell Telephone Co., Olson Brothers, Inc., The Omaha National Bank, Paxton-Mitchell Co., Reikes Equipment Co., Roberts Dairy Co., Sheraton - Fontenelle Hotel, Wray M. Scott Co., Skinner Macaroni Co., Union Pacific Railroad Co., United States National Bank and the University of Omaha.

Loan Fund Not Used As Much

OU students must not be as hard up for money this year as they were last year. At least that is the one observation when a comparison is made between the number of students that borrowed money from the Alumni Association this year as compared to last year.

So far only 78 people have taken out emergency loans in comparison to 117 at the same time last year.

The Alumni Association maintains a \$300 revolving loan fund for student use. Students may borrow up to \$5 by going to the Alumni Office on the second floor of the Student Center, showing their ID card and signing a pledge promising to repay the loan within 30 days.

If the student fails to repay the money within the allotted time, he is fined five cents a week.

Complex Program Causes Dept's Four Way Split Up

Recently the OU engineering department was divided into four departments. The division resulted from the complex program of the department, according to Anson D. Marston, head of the entire department.

Marston now also heads the civil engineering, and industrial and general engineering departments. C. H. Prewett is in charge of industrial arts and Edwin E. Kinney heads the technical institute.

The engineering department offers three major engineering degrees plus three associate technology degrees. At present 14 faculty members are handling the teaching. Marston believes that each man has too heavy a load of teaching.

Therefore by separating the department, faculty members may be assigned to each area of study. However, there would still be some overlapping of teaching as is needed.

Marston also feels the division will benefit the industrial arts program. "We will try to develop an active industrial arts department. It will mainly be for teachers of industrial arts in junior and senior high school. There has been a greater demand for teachers in this area. They have to cope with the school dropouts," commented Marston.

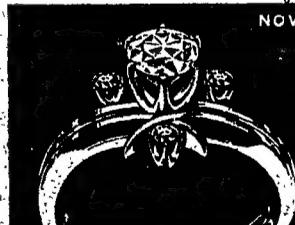

Industrial arts also aids the regular engineering program. It provides graphic arts and shop courses.

The technical institute will be another department that will be enlarged next year. In fact it will double the number of courses offered. Since 1964 was the beginning year of the program, only one year of courses was offered. However, next fall both a first and second year will be offered. On the successful completion of both years, a student will receive an associate technology degree.

Physics Dept. Probes Laser World

By Linda Priesman

Omaha University has a ruby crystal measuring more than four inches long and one-fourth of an inch thick, but it isn't in a ring—it's in a laser owned by the physics department.

The instrument is a low energy type of laser, but it is still powerful enough to damage the eyes of a person standing in the path of the beam. According to Prof. John G. McMillan, the more powerful lasers can drill holes in diamonds without shattering them.

McMillan continued by saying the word laser is a new one. It stands for light amplification by stimulated emission of radiation.

This machine makes possible the most powerful and most coherent beams of light man has ever been able to have. The intensity of light is greater than the light at the surface of the sun.

The theory of the laser was developed in 1953 and 1954 by Charles Townes of Columbia University. A group of Russians also independently worked on the development of the theory. In July, 1960, the first ruby laser was developed by Theodore Maiman of Hughes Research labs.

Lasers have been used with success in the medical profession, also. One single burst of light from the machine can correct a detached retina, which if not corrected, can cause blindness. It is also being used as a research tool in dentistry in ex-

Geography Head Guest Speaker

The head of the Geography department, Dr. Gordon Schilz, will be the guest speaker at tonight's meeting of the Gamma Chi chapter of Gamma Theta Upsilon.

Dr. Schilz, who was a Fullbright lecturer at the University of Mandalay during 1950-1951, will speak and show slides which he made on his visits to Burma.

Anyone interested is invited to attend this meeting of the Geography Honorary. It will be held in room 312 of the Student Center at 5 p.m.

The honorary also initiated five new members at its meeting last week. The new members are: William Fritts, William Jones, Peter Kempf, Clifford Lyons and Armand Parker.

IEC To Meet Tonight

The Industrial Engineering Club will meet tonight at 7 p.m. at the Commercial Savings and Loan Bldg. at 45th and Dodge Sts.

Mr. Bob Sullivan, president of the Omaha Chapter of the American Institute of Industrial Engineers will be the guest speaker.

Anyone interested may attend the meeting. Refreshments will be served.

Bail: Calls For 'Study'

(Continued From Page 1) tonomy by defeating the recent mill levy election.

Mr. Rhodes said, "Omahans only indicated they did not want to pay more taxes when they defeated the mill levy proposal."

In a final comment, Dean of the College of Adult Education William Utley told the group:

"We (the university) do not intend to be all things to all people. We are trying to evaluate the local situation and to meet some of its needs."

Sedlacek focuses laser beam on balloon.

excavating cavities. McMillan pointed out the case where one researcher is using it to fuse an enamel type substance to teeth, thus coating the teeth with good enamel. This researcher has had success with extracted animal teeth.

Charles Sedlacek, physics instructor, is learning about and investigating the laser principles in a special project for an optics course. The department hopes to use the laser as a minor research tool for student-faculty projects as well as for educational purposes.

The physics department head pointed out an interesting note.

The laser can drill a hole in a piece of fine wire (two thousandths of one inch in diameter). The hole will be less than two thousandths of an inch.

The impurities of chromium present in the ruby-red color are responsible for the lasing ability. A tremendous burst of white light strikes the ruby and "excites" the chromium impurities to higher energy levels. They then drop to an "unexcited" state and emit the characteristic red light in a single coherent burst emerging from the ruby rod.

Omaha University's laser cost two thousand dollars.

Eilene Gorr Dies Suddenly

Mrs. Eilene Gorr, 50, wife of Ernie Gorr, assistant professor of men's physical education, died suddenly Monday morning.

Mrs. Gorr was a kindergarten teacher at Franklin school and had taught at other schools in the Omaha area for several years. She had just arrived at

Franklin when she was stricken. She was found shortly thereafter by another teacher and a janitor.

Funeral services were held Thursday at 3 p.m. at Dundee Presbyterian Church. Burial was at Hillcrest Cemetery.

Bootstrappers Formal On Saturday

The Society of the Pen and Sword Christmas Formal dinner-dance is scheduled for Saturday, Dec. 12, at 7 p.m. at the Omaha Athletic Club. Reservations should have been made

before Thursday, Dec. 10 said First Lieut. Joe Namaksy.

Part of the proceeds will go to the Pen and Sword Society's pledge to the WH Good Fellows' fund.

Eight Years Make Senior An Expert In Vanishing Art

By Bob Erxleben

Music major Dave Busch is a fun-and-profit practitioner of a vanishing craft. He makes oboe reeds.

"It's a lost art," Busch said, patiently whittling down an oboe reed. "I doubt if there are more than 500 people in the country who can make a good oboe reed."

The senior music major has been practicing his art for about eight years.

"I was taught by my music teacher in the eighth grade," Busch said. "He taught me to play the oboe, and said that a good oboe player should make his own reeds. It took me a couple of years to get the knack of it, and several more years to get really good at it."

Reeds Cheap

The profit angle began about a year ago when he began selling reeds. "I sell the reeds for two dollars apiece," Busch said. He added, "That's a bargain—they normally sell for three dollars or more."

The reeds are made by attaching bamboo cane to a metal tube which has one end covered with cork. Then comes the real work—shaving the bamboo reed to the proper consistency.

Short' Life

"That's the real art," said Busch. "It often takes an hour or more to trim a reed down to where it has the proper pitch." According to Busch, the average life span of a reed is three days to a week.

Busch's talents in the music world also include playing the oboe, English horn, and clarinet. He plays in both the Omaha and Lincoln symphonies.

A speech minor, Busch is currently student teaching a speech class at Tech High.

Navy to Symphony

As a Naval Reservist, Busch

Jack Titus Likes OU Friendliness

By Vicki Adam

Retired Navy Captain Jack Titus, pleased by the "spirit of friendliness" on the University of Omaha campus, is spending his first semester on the faculty.

Titus, Assistant Professor of Industrial Engineering, teaches four classes and sponsors the University's chapter of the American Institute of Industrial Engineering.

Retired in 1959

In 1959, Titus retired from the Navy after serving as a line officer for 30 years. His Navy career began when he entered Annapolis in 1929. He was drawn to the naval academy because it offered a "good opportunity and a chance to go into something different." Titus received his B. S. degree in mechanical and electrical engineering in 1933.

On his first assignment, he served as junior officer of a battle ship. During World War II, Titus was commander of two submarines in China and the Philippines. He commanded a submarine base in Guam from 1945-47.

faces a two-year tour of duty following graduation, but is considering extending it to three years—and serving as a commissioned officer.

"After that," he concluded, "I would like to play professionally on a symphonic orchestra level."

Battle Analyst

Returning to the United States in 1947, Titus held two jobs with the Navy Department in Washington, D. C. From 1954 until his retirement, he was a battle analyst for the College of Naval Warfare in Newport, R. I.

Titus entered Purdue University in 1960 as a graduate student. This year he received his M. S. degree in Industrial Engineering and Administration, and accepted his present position at Omaha U.

Second 026 Machine Ordered For Center

A second IBM 026 Key Punch machine has been ordered for the OU Computer Center. Dr. William Walden, head of the Center, said the Printing Card Punch machine will be rented from IBM at \$48 a month which includes a 20% educational discount.

Dr. Walden said it may take as long as three months before the machine is delivered; however, he said he hopes it will arrive before the beginning of next semester. Mr. Art Ashley, Computer Center assistant, said the new Key Punch is needed to lighten the load of the other machine.

Deadline Nears For Applicants

Deadline for applying to the next Coast Guard Officers Candidate School is Dec. 31.

The next class is convening Feb. 8 in Yorktown, Pa. Admission requirements are:

Between the ages of 21-27

Height 5' 4"-6' 6"

Vision 20-50, corrected to 20-30

Graduate of an accredited university

Anyone interested in applying should call the Coast Guard Recruiting station, 221-4710.

Naylor In Denver With Ailing Father

Dean of Administration Kirk Naylor was called to Denver, Colo., suddenly Monday morning due to family illness.

His father Louis suffered a coronary. Mrs. Blanche McGovern, Dean Naylor's secretary, received a phone call from the Dean Tuesday morning and was told that the elder Naylor pulled through the night but was still in serious condition.

Twins Die

The infant twins of Ervan Heinz, special assistant in the audio visual department, died after a premature birth last week.

Funeral services were held Monday at 1:30 p.m. at the John A. Gentleman mortuary. Burial was at Holy Sepulchre cemetery.

Dr. Hurst III

Dr. Francis Hurst, of the psychology department was hospitalized early Saturday morning with kidney stones.

He will remain in the hospital while doctors check for complications.

Four Basic Rules To Create School Spirit For OU Team

By J. C. Milton

Rule 1: Play on the sympathies.

Have you ever had the feeling of being alone, forgotten, isolated, downtrodden, desolate or forlorn? No? Then you are probably not a member of an OU athletic team.

These fine fellows have to "go it alone" on an average of once a week; battling an opponent for the glory of OU while a handful of spectators watch with a flagrant air of detached apathy.

Rule 2: Invoke shame.

When was the last time you attended a football or basketball game? (Was it ours?) When was the last time you screamed bloody murder when the OU team scored? When was the last time my typewriter was oiled?

Rule 3: Levity often helps.

I understand that all those students who regularly attend athletic contests at OU are formed in a club and meet every week in an Applied Arts building closet. (It's a rather small intimate group.)

Rule 4: Inspiration and dedication.

But the fact remains, OU sports want YOU. You don't have to attend games for God, country or the American way of life. You don't even have to attend for OU, (as if you would). But you owe it to yourself to attend. You will work off anxieties; get to "boo" the referee; meet friends and influence people. You will have funy-wunzy, and what's more, you'll be a man, my son.

A word from our Sponsor

Now that I have secured your undivided attention with this vast display of emotional rhetoric, here is a word from our sponsor — the Inter-Pep Club.

"Put a little fun in your life — try the Pep Rally way. Today, 12:00 in the Ouampi Room."

"It's new, different, improved and inexpensive, The basketball game. OU vs Pittsburg State, Saturday at 8 p.m. in the Field House."

AND remember: "Promise her anything, but take her to a Sock Hop."

More on the way every day! Thanks for waiting!

Your wait for one of these new 1965 Chevrolets is about over—and we want to thank you for your patience. Come see us now. When you get behind the wheel, you'll be glad you waited!

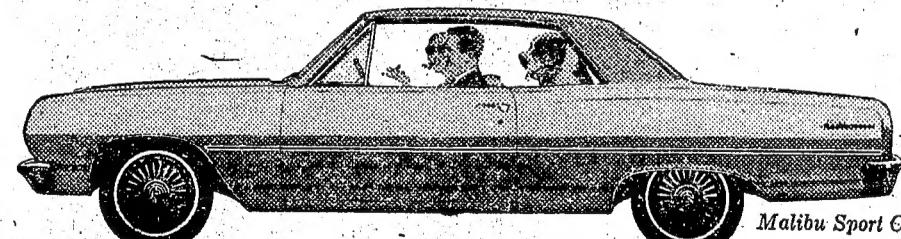

CHEVROLET

Impala Sport Coupe

'65 Chevrolet

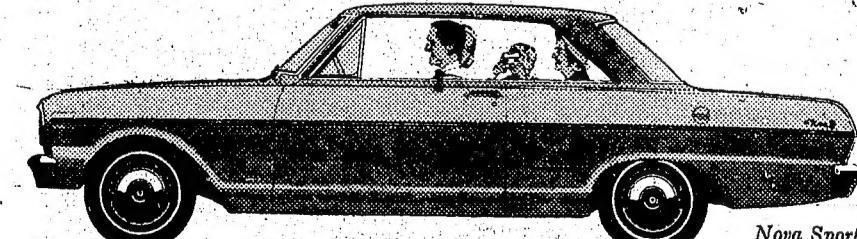

It's longer, wider, lower. It's swankier, more spacious. You could mistake it for an expensive car—if it weren't for the price.

Malibu Sport Coupe

'65 Chevelle

Fresh-minted styling. V8's available with up to 350 hp. A softer, quieter ride. And it's as easy-handling as ever.

Nova Sport Coupe

'65 Chevy II

Clean new lines. Fresh new interiors. A quieter 6 and—V8's available with up to 300 hp. Thrift was never so lively.

Corsa Sport Coupe

'65 Corvair

It's racier, roomier, flatter riding. With more power available—up to 180 hp in the new top-of-the-line Corsas.

More to see, more to try in the cars more people buy.

Instant Beer! What Next?

In a recent issue, World-Herald columnist Robert McMorris discussed the possibility of instant beer. He said several brewers are reportedly planning to produce a beer concentrate which is made by removing most of the water of conventional beer and later "reconstitute" it by adding water and carbon dioxide.

Think of the great strides beer drinkers could take if this arose. Beer bags, much like tea bags, could be produced. A little water and carbon dioxide and presto: You have a glass of home-made brew.

Beer drinking could be carried out in such places as the Ouampi Room without detection if the beer bags could be passed off as tea bags. It could even extend to school-sponsored parties and dances where drinking is prohibited.

Just the answer for those social groups who refuse to recognize the no-drinking rule. Then they wouldn't have to run the risk of social probation.

Payola At OU? . . .

GATEWAY copy editor Lee Forsberg says she has uncovered either a case of payola or good public relations. According to her, OU instructor Warren Wittekind isn't sure either, but he likes it whatever it is.

Two weeks ago, Wittekind's public relations class had a special telelecture with Robert Hefty, public relations manager of the Ford Motor Company. Hefty spoke to the class about the Ford Mustang and how it was first introduced to the public.

Biology Department Baby-sits . . .

The biology department is baby-sitting with an abandoned infant until spring, reports Patty Wortman.

The baby turns out to be a chick-a-dee which was a victim of the cold early this week. A warm-hearted student found the bird, unable to fly, huddled by the Student Center.

The frigid fledgling was taken to the Ouampi Room and later transferred to the biology department. Officials have quelled the fears of students by saying the bird definitely will not wind up under a microscope.

Four Engineering Clubs Cover Varied Interests

Omaha University has not one, but four engineering clubs on campus. Each group is concerned with a separate area of engineering.

The oldest engineering club on campus is the Institute of Electrical and Electronics Engineers. It is nationally affiliated. Several years ago two groups of electrical and radio engineers combined to form the present I. E. E. E.

The physics department sponsors I. E. E. E. at OU because it deals with electronics. John McMillan is faculty advisor. Sometimes the club has joint meetings with the adult chapter in Omaha.

A more recent group at OU is the American Society of Civil Engineers. It is sponsored by the Nebraska section of A. S. C. E. The section provides two outside contact members to assist the OU chapter.

Students hold regular monthly meetings on Friday evening. Tonight, December 11, the A. S. C. E. will hold a meeting in the Student Center at 7.

Usually the club takes a field trip sometime during the month. Anson Marston is faculty advisor of A. S. C. E.

The American Institute of Industrial Engineers, although not formally nationally recognized,

has local support. Jack Titus is faculty advisor of this club which generally meets on Wednesday afternoons.

However, the A. I. I. E. will hold a meeting tonight, at 7 P.M. in the Commercial Savings and Loan Association building at 45th and Dodge Streets.

The fourth group is the Society of American Military Engineers. The group is sponsored by the Omaha Post of S. A. M. E. The club has a charter from the national chapter. This organization mainly serves students taking both ROTC and engineering.

Marston is also adviser for S. A. M. E. The group generally meets every two weeks on Wednesday afternoons.

According to Marston, the purpose of the national societies is to be "an extension of knowledge in the engineering field. It is important that an interchange take place with other men in the same field. A second objective is to promote a professional approach to engineering."

On campus, the engineering organizations give students an acquaintance with a particular engineering field. Students then gain an idea of the opportunities in the field.

Delta Sigma Pi Gains Fourteen

Fourteen men were initiated into Delta Sigma Pi, the men's professional fraternity, on December 6.

LaVern Cox, the regional director of Delta Sigma Pi, and guests from the Nebraska chapter attended the activation.

The new members are John Aresta, Jay Atwell, Byron Bissell, Richard Booth and Robert Chrisman. Others are Barry Eakens, Terry Edstrom, Jim Erikson, Walter Goecke and Barry Halla.

John Krecek, Paul Long, Dixon Mitchell and Ron Rosberg complete the list.

Jay Atwell was named the Delta Sig outstanding pledge.

Dr. M. G. Newport spoke to the chapter about the worthiness of the organization on campus.

* * *

Delta Sigma Pi has extended an invitation to the members of Phi Chi Theta, the women's professional business sorority, to attend the professional meeting on Friday, December 11.

Kennedy Reports Now In Library

The complete "Investigation of the Assassination of President John F. Kennedy" is now available in the reference section of the Gene Eppley Library. The 26 volume report containing exhibit materials, hearings and depositions arrived last week, free of charge, from the Government Printing Office in Washington D. C.

The texts acquired will serve to supplement the findings of the President's Commission on the Assassination of President Kennedy, popularly referred to as the Warren Report which is also available in the library.

Home Ec Club To Visit Home Sunday

The Home Economics Club will visit the Florence Old People's Home Sunday afternoon.

Members will sing Christmas carols, have entertainment and serve refreshments. They will also give each patient a Christmas gift that the club members made.

"Although most people think Christmas is for kids, we thought the older people would enjoy some cheer," said Jeri Klingforth, president.

Newman Club Panel To Hold Discussion

The Newman Club will hold a panel discussion concerning "The Church, Psychology and Free Will," on December 13 at 7 p.m. Panelists will be Dr. John Newton, Dr. D. J. Peduim, Mrs. Betty Zdan and Father Gerald Noonan.

St. Margaret Mary's Church will be the site of the meeting. Newman Club members are requested to be in the church basement at 6:30 so their pictures may be taken for the Tomahawk.

The University Choir will present its annual Christmas Convocation December 18 at 10:30 a.m. in the auditorium of the Administration Building. All 10:30 classes will be dismissed for the program.

OU's Night Of One Acts Highlights This Evening

By Diane Cade

"The Romancers," "A Phoenix Too Frequent," and "Bontche Schweig"—no, they are not the names of three new vocal groups but they are the titles of the three one-act plays to be performed this evening at 8:30 in the OU auditorium.

Bob Lane will direct the production "The Romancers," written by Edmund Rostand. This story "is about two fathers who trick their children into getting married so that they, the fathers, can merge their joining properties and live more cheaply," said Lane.

Working on the crew are Ken Ploss, set designer, Elizabeth Melcher, lighting and Linda Barr, stage manager.

A Louse Steals a Spouse

"A Phoenix Too Frequent," by Christopher Fry tells of an unusual congregation near Ephesus.

"A noble woman, her servant and a dead spouse all come together in a tomb near Ephesus," said Alice Hewitt, director of this one-act. "Their mourning is interrupted by a handsome soldier who steals the lady from her dead lover," she noted.

Christmas Star On Display Again

The "Star" is up. The "Star" is the eight-point Christmas star displayed on the Administration Building cupola each Christmas season. This marks the tenth year that the eight-foot ornament has been displayed by the University.

The wood-backed, fiberglass star was designed and built in 1954. The designer was Alden Aust, at that time, Physical Plant Superintendent. Jim Lockwood, who was then a plant man, built the star.

The "Star" is lighted by six dozen 60 watt bulbs. All bulbs are replaced each year to prevent them from burning out.

Duties Are Varied At Testing Bureau

Students can no longer blame poor grades on the "person" who scored it, or can they?

That "person" is a machine rented from IBM. It can grade 250 single score tests in one hour with various ways of scoring.

So you say, "a machine can make mistakes too." The machine is checked to see if it is working properly. A few tests are hand scored and then put in the machine to check for accuracy.

All IBM tests are scored by the Bureau of Industrial Testing located in the Administration Building. Richard Nicholson heads the bureau with four graduate interns assisting.

As well as scoring tests for Omaha University, the bureau scores tests for other schools including Creighton University, District 66, and entrance examinations for nursing.

The main function of the bureau is to provide consulting services to local industry on a fee basis. Services include: executive selection, and appraisals, industrial psychological research, and management development.

The bureau maintains one of the most comprehensive and current specimen sets of industrial tests. These tests help companies such as Union Pacific and MUD, test their employees for abilities and attitudes.

Lonna Haynes, assistant director, Don Houghton, designer and Pam Smith, costumes, help Miss Hewitt concoct an entertaining excursion into the realm of the metaphysical.

"Bontche" What?

In a day when true humility is a rare entity, "Bontche Schweig," a one-act directed by Leslie Epstein, brings to the stage the story of a humble man.

"This is a story of a man's silence and humility throughout his troubled life without a word against man," noted Miss Epstein.

Crew members of the play include: Ira Raznick, assistant director; Mike Bothal, sound; Ira Raznick, lighting; and Gary Johnson, stage manager.

Nina Bieda, who will portray Sophie, and Maureen Borden, the defending angel, both participated in the Readers' Theatre production, "Under Milkwood."

Activity cards will be used for admittances.

Persona Dramatis

The characters in "The Romancers" are: Mike Moore, Gail Rowden, Keith Johnson, Joe Schik, Jim Phillips, and Jim Solomonson.

The characters in "A Phoenix Too Frequent" are: Nancy Schneiderwind, Sue Bahringer, Mike Ward and John D. Aresta.

The characters in "Bontche Schweig" are: Nina Bieda, Maureen Borden, David Bock, Larry King, Barbara Kaplin, Carolyn Goodland, Vivi Feldman, Jo Anne Stang and Mary Hallas.

Show Biz Career Miss Omaha Goal

By Marilyn Miller

Show business is the goal for 18 year old "Miss Omaha of 1964" Sherry Rooney. The 5' 3" brown-haired, blue-eyed miss is currently "starring" as co-hostess with Johnny Ray Gomez on his Saturday afternoon dance show.

Her future plans, however, follow a different line. "I plan to try to break into show business in musical comedy or as a professional dancer," Miss Rooney said.

She began taking dancing lessons at the age of three. Before moving to Omaha last year, she danced at the Starlight Theater in Kansas City for two years.

Latest Parts

A part in the presentation of "Damm Yankees" at the Omaha Playhouse was the most recent professional role she has completed. She also played the part of "Liat" in OU's production of "South Pacific."

Miss Omaha

The Liberal Arts freshman is carrying twelve hours this semester. Besides dramatics, she is active in Young Democrats.

Tentative future plans include studying dancing in New York next summer. Along with dancing, she would like to develop her ability to hold a character.

Learn Development

"Acting is not an art, in the sense that I want it to be, in Hollywood today. The acting is too pieced and the actor's own personality is projected into the part instead of the actor adapting to the role," Miss Rooney said. "I want to learn to develop, portray and hold the character as it should be."

From The Bushes

By Mike Moran

Pass The Crutches . . .

We can't fill our football stadium, we can't fill the Fieldhouse for basketball, nor can we fill our auditorium for a beauty contest. In the face of such an imposing display of apathy, it's a real pleasure to hear from someone who has too many people interested in an event.

So we have the Ski Club . . . a letter appeared on my desk Wednesday morning announcing that a whopping 145 students have signed up for the Club's January trip to Winter Park, Colorado.

The Club has a total of 250 members, so one can see without much calculation that over 50 percent of the group will be going. Officials say that a few more names will be accepted in case of dropouts, but they don't foresee any such animals.

I wish I was going, too. I certainly can't ski, but with all the gorgeous girls and a friendly fire roaring in the lodge (plus a cup of hot-buttered rum), who cares about a couple of lousy skis and a long slope?

Seriously . . . the Ski Club will be hosting a skating party at Ak-Sar-Ben this evening from ten to midnite. Over 100 ski bugs have signed on the dotted line for this one. It's open to members, guests or any interested OU student:

In a couple of weeks, they'll be migrating to Crescent, Iowa, for the first of four "warmups" for Colorado.

It's not too late to get in on the fun. Judging from the fantastic response, you obviously are missing something if you don't sign up for something with the Ski Club. The letter says to contact Dr. Blackwell in Room 350 of the Administration Building.

Excuse me, I've got to leave and get my earmuffs fitted. And my St. Bernard needs a new keg

Big Swish . . .

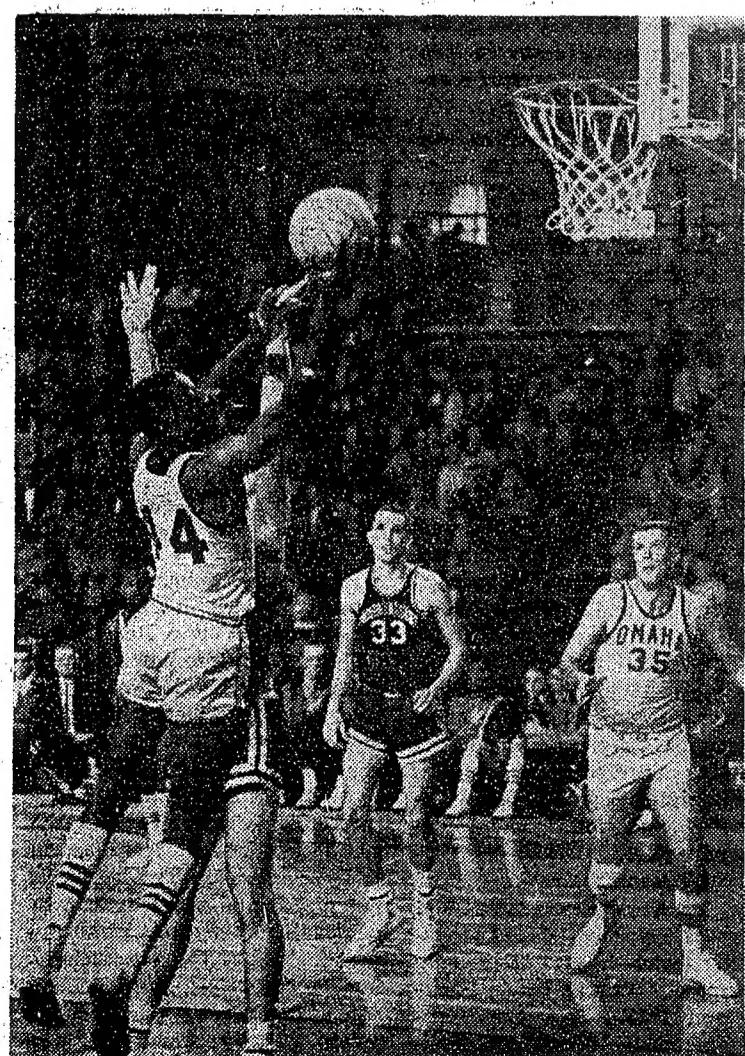

For those of you who wonder just how close of a record was Sam Singleton's 39 points against Morningside . . . the OU single game scoring mark is 46 points by Stan Schaetzle against Wayne State in 1956.

Singleton tied the record of 17 field goals last year against Washburn as he pumped in 39 markers against the Ichabods at OU.

Big Sam holds the single season scoring mark of 429 points set last year. With two years to go, the big New Jerseyite seems certain to walk off with career scoring honors as well.

Mystery of the year remains why the Omaha star didn't make the All-CIC team last year. He gained NAIA District Honors as well as Little All-American honorable mention.

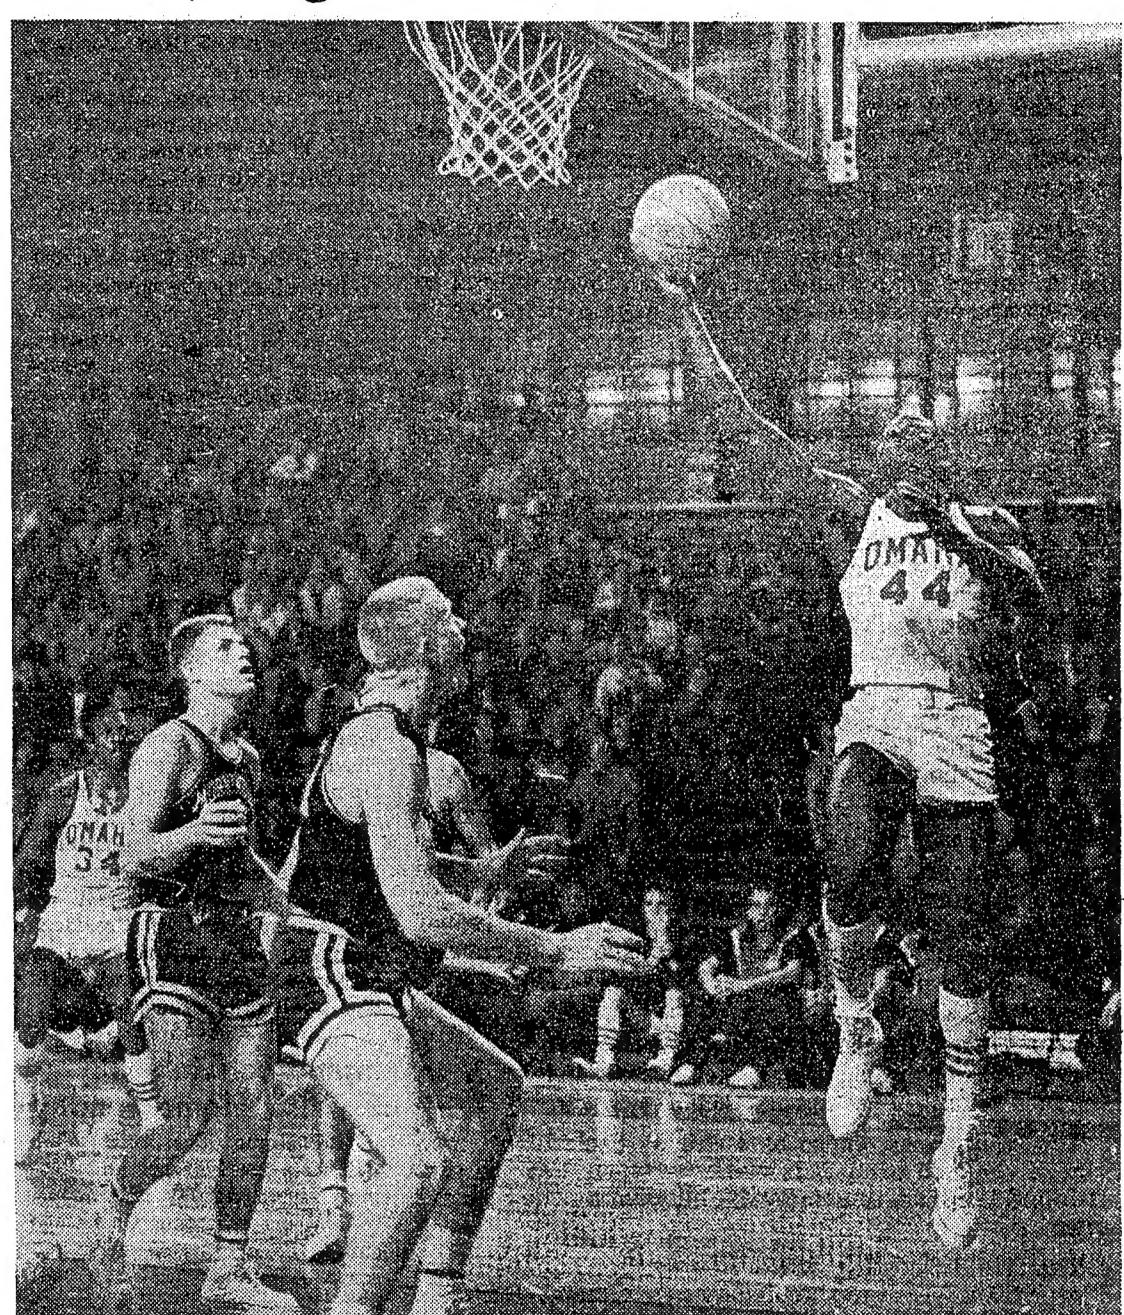

Sure would like to know why CIC coaches didn't agree with the other experts

OU's scoring sensation, Sam Singleton, hits for a bucket

Ralston Rookie Shines . . .

Indians Smack Chiefs, Wesleyan; Pittsburg Here Tomorrow Nite At 8

Singleton gets another of his 14 baskets against Morningside

By MIKE MORAN

Pittsburg State's Gorillas invade the Omaha University Fieldhouse tomorrow night at eight for the CIC opener with Jim Borsheim's rejuvenated Indians.

The home contest will mark the last Fieldhouse appearance for the Red and Black until a January 5th meeting with Emporia State.

TOTALS	23	17.26	63
Attendance	400	Estimated	

Omaha made Nebraska Wesleyan victim number two in a row by blasting the Plainsmen, 75-63, Wednesday night. The score was not indicative of the game as eight Indians entered the scoring column and coach Jim Borsheim swept the bench.

OU jumped off to a commanding 41-26 halftime lead that Erv

Petersen's Lincolmites could never whittle down. High scoring Sam Singleton spent most of the evening on the Omaha bench as rookie Bill Haas turned in a tremendous relief job. The Ralston freshman found the range for nine points and was outstanding defensively.

Singleton, who has been averaging 27 points a game, appeared tired and Borsheim benched him just into the second quarter. The 6-5 soph netted only 6 points. When called upon in the second half, Singleton responded with another lackluster effort and was taken out with just a couple of minutes to go.

Cold Spell

Wesleyan's downfall was prompted by a meager six point output during the first half's closing minutes. The Lincoln crew was down, 26-20, at the ten minute mark, then managed only three baskets the rest of the half.

For the game, the Plainsmen hit 27 percent while Omaha fared a little better at 33 percent. The frigid Wesleyan five never threatened.

6-7 Larry Villnow played his finest game of the young season for OU, scoring 16 points and doing a great rebounding job. The big senior used his hook shot down the key to great advantage over the shorter Wesleyan defenders.

Charlie Myers nailed 14 points and Butch Cribbs chipped in

with 13 to encore Villnow's fine effort. Marlin Briscoe and Jimmy Myers got eight apiece and turned in good floor games.

But the real surprise was Haas and his fine performance. The freshman center gave away lots in the height department but made up for it with determination and hustle.

Morningside Falls

The Indians nailed win number one of the season last Saturday night with a 74-61 win over Morningside at the OU Fieldhouse.

A crowd of 800 saw Sam Singleton blister the nets for 39 points to lead Omaha to the win. Singleton tied his own personal scoring mark set last year.

OU led by 36-33 at the half, lost the lead but then stormed back to wrap up the victory behind Singleton's hot shooting.

The loss was Morningside's first after an opening romp over Westmar.

Old Sport Gets New Twist As Brave OU Students Try The Arts Of Curling; Help!

By Mike Moran

The ancient sport of curling, long a stranger to any part of the nation except the ice ponds of New England and the lakes of Minnesota in winter, now is making inroads here in Omaha.

The Omaha Curling Club, with two rinks, meets at Ak-Sar-Ben each week. The Club has a standing room only membership until new ice can be located to facilitate further members.

Last week, 25 Omaha University students got a first hand look at the brooms and rocks and just what makes the seemingly awkward sport tick.

Bert Kurth's Sports officiating class made the trip to the Club's rink and tried out their styles with the help of OCC President P. K. Maxwell and his associates from the rink.

Game Simple?

Strong armed P. E. Majors figured that delivering the rock would be easy. Somewhat like

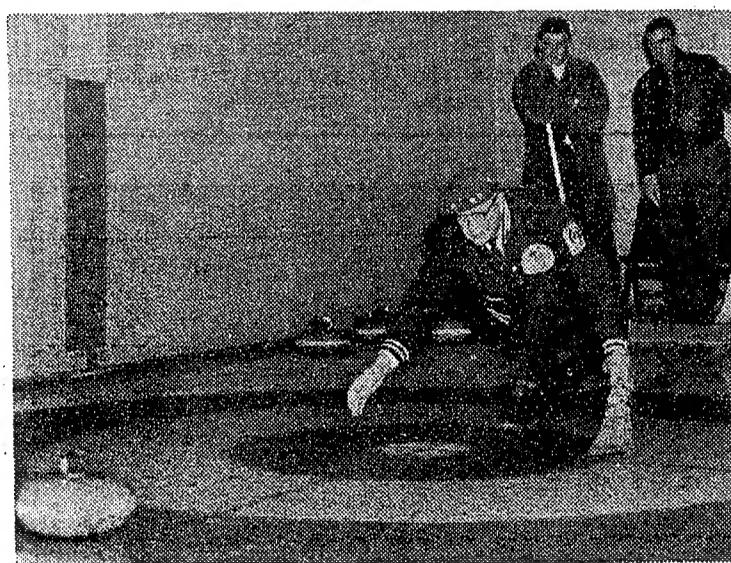

Sweeping an Art

This is where the art of sweeping comes in. The other members of the team wait ahead of the rock, and if it is going too slowly to reach the designated target, they sweep the ice ahead of the rock with small brooms. This, either by creating a vacuum or making a slick path, increases the speed of the rock.

The deliverer also can control the direction of the rock by turning his wrist when he releases it. He can make an out-turn or an in-turn delivery.

The Omaha U visitors found the sweeping more challenging than delivering the rock. Trying to keep ahead of the rock proved a big hurdle in itself. Time and time sweepers would take a spill or be simply outrun by the speeding rock.

More often than not, the rock would either fall short or strike the retaining wall in back of the scoring area with a resound-

Maxwell delivers rock . . . this is the right way

Dennis Ondilla and Gary Gilmore sweep . . . whew!

ing whack.

Teams Formed

But after an hour or so, the OU hopefuls began to take on some polish and figure out the balance needed to master the sport. Mr. Kurth has formed four teams that will play once a week on the ice.

He hopes there will come a day when the sport can be a part of the program here at the University. That may be a while away, but there are 25 people on his side right now and more to come.

STUDENT PRICES

bowling, many thought, it will be easy. Only when the 80 pound rock took the sender halfway down the ice with it, did the startled rookies realize that there was more to it than met the eye.

After a few preliminary lessons from Maxwell, the curling neophytes were delivering the rocks in the right direction and managing to land a few on the scoring area on the other end of the ice.

To clarify the sport, it works somewhat like shuffleboard on ice. The deliverer sends the rock down the ice and tries to land it on the scoring area. It is worth one point if it comes to rest within the circle.

The opposing player then takes his rock and tries to knock the other one out of the circle or else score himself in doing so.

Each side has three rocks per end. An end is somewhat like an inning.

Wrestling Reminder . . .

Lambda Chi's Keep Hot Bowling Pace; Unbeatens Dominate Basketball Charts

The Intramurals Office has issued a reminder to all men interested in the Open Wrestling Tournament to be held January 16th in the Fieldhouse.

Entries will be in divisions 123, 130, 137, 147, 157, 167, 177, 191 and Heavyweight.

Weigh-ins will be from 8-11 a.m. on the 16th and the matches will begin at 11:30 and end at four that afternoon.

Bowlers Continue Hot

Lambda Chi kept atop the heap during this week's Bowling activity. High games went to the Lambda Chi team with a 736 and individually to Don VanderWerf of the Sig Eps with a 217.

High series honors for the week went to Lambda Chi with a 2175 and to Merle Goff of the leaders with a 592.

Hoop Leaders Unbeaten

All three league leaders in basketball remain unbeaten and League 1 has two teams with unblemished marks. Standings through Tuesday:

Inter-Pep will sponsor an All-School Sock Hop, Dec. 12, after the OU-Pittsburg State basketball game. The Jaguar Combo will provide the music for the dance that is to be held in the Fieldhouse. Admission is by activity card.

During the game at half-time, prizes will be presented to the winner of the Inter-Pep Football School Spirit Contest. Chi Omega and Alpha Xi Delta tied in the contest with 70 points each.

The prize will include a football trophy autographed by the team and Football Coach Al Caniglia and a certificate of achievement.

BRANDEIS

Bob Bales, Burney Ramming, Lyle Karre and Doug Ragnow await the announcement of Typical College Man tonight. Not pictured is Rich Thompsett.

College Man Announcement To Highlight Dance Tonight

The election of a Typical College Man will highlight the annual Sigma Frolics dance to be held tonight by Sigma Kappa sorority.

Candidates are Bob Bales, Tau Kappa Epsilon; Lyle Karre, Theta Chi; Doug Ragnow, Sigma Phi Epsilon; Burney Ramming, Lambda Chi Alpha and Rich Thompsett, Pi Kappa Alpha.

Candidates were nominated by members of the sorority and will be voted on at the dance by those holding Greek cards.

One Greek card will admit a couple to the semi-formal dance, which will be held from 9 p.m. until 12 a.m. in the Student Center Ballroom. Music will be

provided by the Shanghais.

Social chairman Pat McFarland is in charge of arrangements.

A pre-party will be held at 7:30 p.m. at the home of Barb Lacy.

OU Foreign Students Honored By Waokiya

All foreign students on campus were the guests at a tea held yesterday afternoon in the Conference Center.

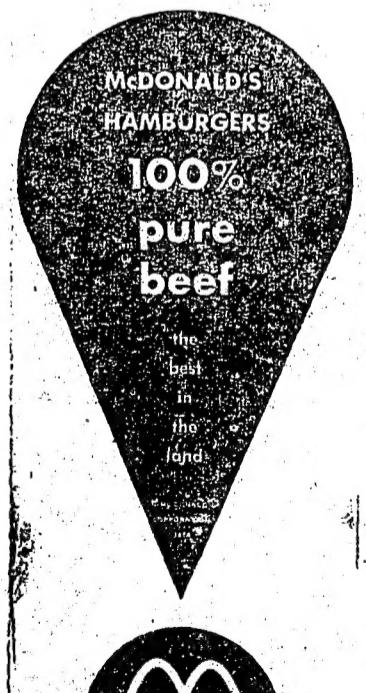

Professors of foreign languages and the deans were also invited to attend the event sponsored by Waokiya, the Senior women's honorary.

Susan Krogh was in charge of the arrangements.

Wardle To Speak

"Hyena in Petticoats" will be the topic discussed by Dr. Ralph Wardle Sunday, December 13. The program is open to students at the home of Robert Sconce, 520 So. 89th St.

The 7:30 p.m. meeting of the Student Religious Liberals will be a discussion of Mary Wollstonecraft, the first feminist.

80th & Dodge

Sig Ep Playmate Named At Dance

The members of Sigma Phi Epsilon fraternity selected Cathy Stoeber as the 1964 Playboy Playmate of the Year.

This announcement was made at their annual Playboy Party held Saturday night at the Offutt Air Force Base Pavilion.

Cathy is a member of Zeta Tau Alpha and a sophomore majoring in Home Economics. She was given a gold necklace.

Other candidates were Marsha Mefford, Chi Omega; Sue Moran, Alpha Xi Delta; Nancy Rolle, Alpha Xi Delta and Lydia White, Zeta Tau Alpha.

Mike Kisgen was master of ceremonies for the dance which featured the Four Flairs Combo.

Reminder. The annual Christmas convocation will be held Friday, December 18 at 10:30 a.m. in the Adm. Bldg. Auditorium. Classes meeting at 10:30 the day of convocation will be dismissed so students can attend.

Angel Flight's Drive Nets Toys For Poor

The Angel Flight's Toys for Tots drive netted over 400 toys for needy children.

Toys were collected throughout a two week period as students placed toys in barrels situated throughout the buildings on campus.

The majority of the toys were contributed at the Toys for Tots Dance held in the SC Ballroom last Friday evening.

Members of the local unit of the Marine Corps Reserve picked up the toys at the Student Center Saturday morning. The toys will be repaired by the Marines and sent to the Good Fellows for distribution.

Marcia Crowned TKE Sweetheart

Marcia Ray was named the 1964 Tau Kappa Epsilon Sweetheart at the Red Carnation Ball held last Saturday night.

The annual dinner was held in the Garden Room of the Kiewit Plaza and featured music by Fred Feraro.

Marcia was given two dozen red carnations and a pin by the fraternity. She is a member of Zeta Tau Alpha sorority and a junior majoring in education.

Other candidates were Fran Ernst, Chi Omega; Kathy Fentress, Zeta Tau Alpha and Katie Hinckman.

Richard Russell was master of ceremonies and in charge of the arrangements.

Field Trip To Lincoln Planned By Bio. Club

The Biology Club is making plans for a field trip to Lincoln, Nebr. on December 19. The trip will include tours of Morrill Hall and the Lincoln Zoo.

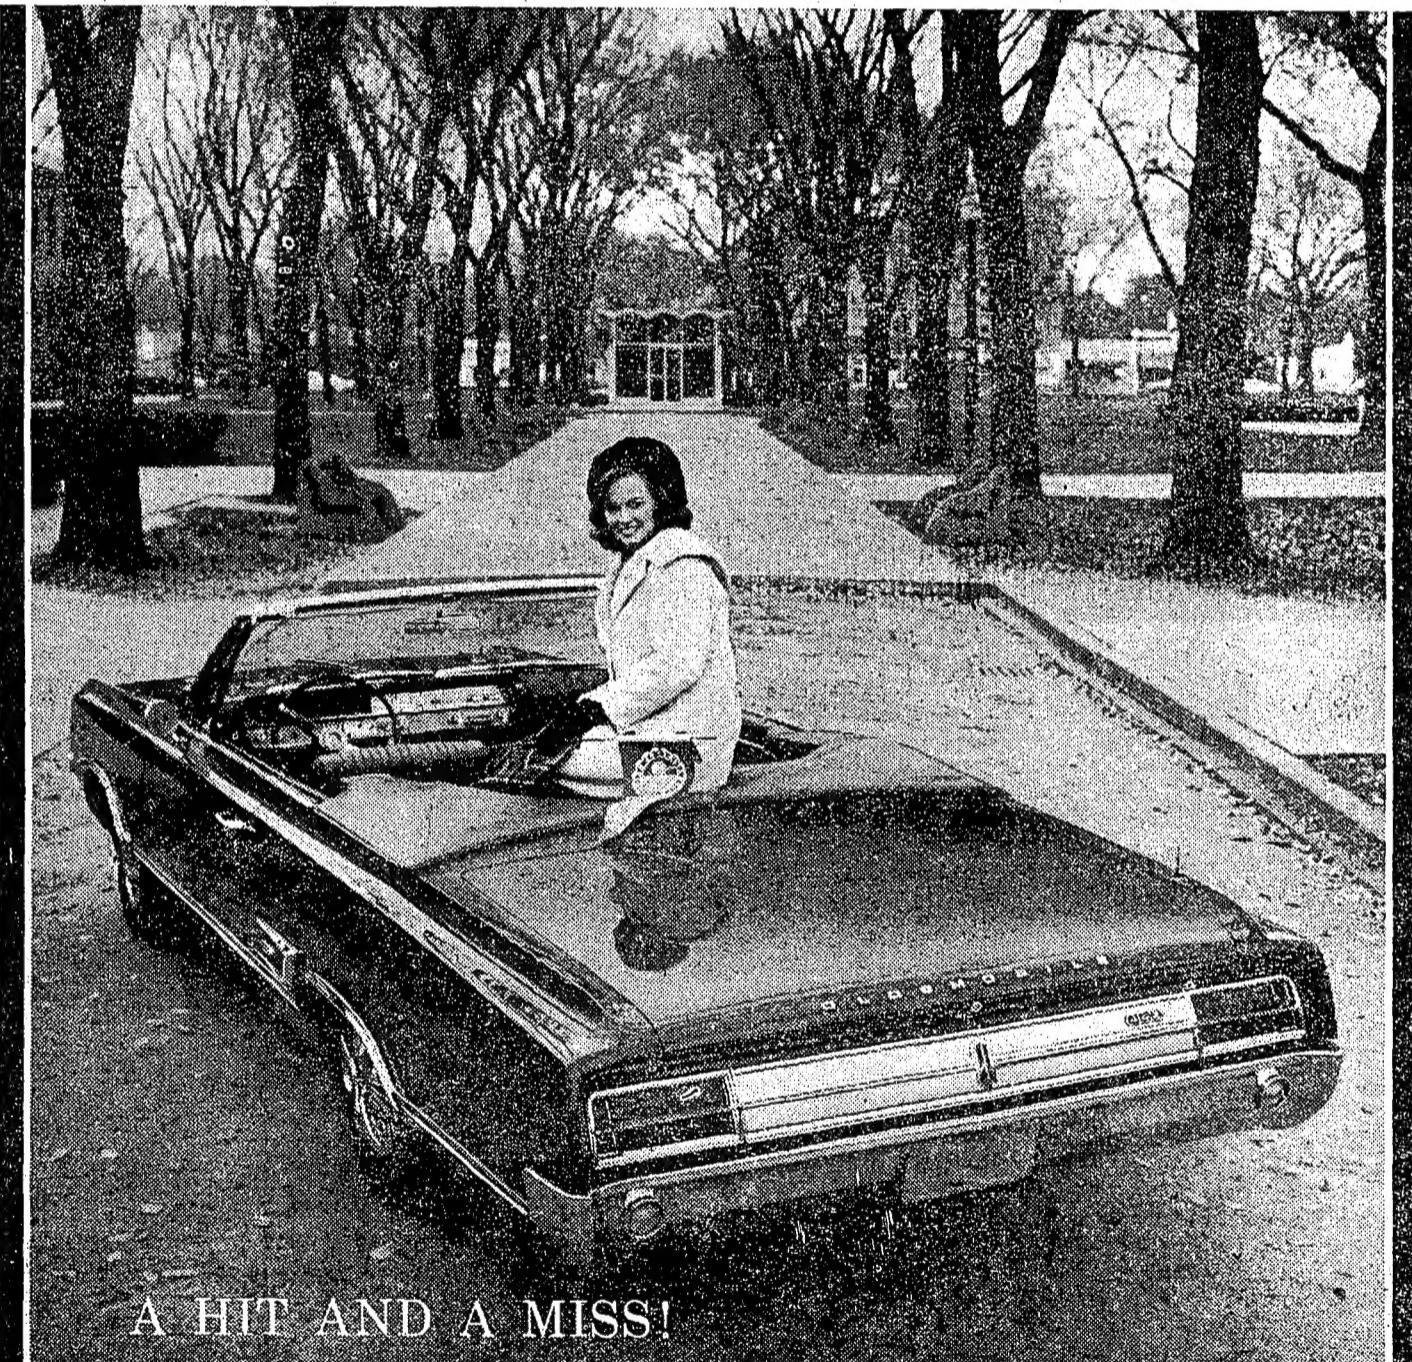

Anyone interested may go and all participants must pay thirty cents for school insurance. This should be paid to Mr. Delmar Woods in the Biology storeroom, before December 15.

Leymoine Johnson is in charge of the arrangements.

Tea Set For Dec. 16

A Dean's Tea will be held Wednesday, Dec. 16 for the officers of the various organizations on campus.

The event will be in the SC Ballroom from three to five p.m. and will feature a Christmas theme.

Illustrated: 4-4-2 Convertible

Miss America steps out on campus

in the high-stepping Oldsmobile 4-4-2

If you can tear your eyes off pretty Vonda Kay Van Dyke for a moment, we'd like to tell you about the car: Oldsmobile's new 4-4-2. Earns its name from a 400-cu.-in., 345-bhp V-8 . . . 4-barrel carb . . . and twin pipes. Red-line tires, heavy-duty suspension, three transmission availabilities liven up the package—no matter which F-85 V-8 coupe or convertible you pick for your 4-4-2 action! But the real clincher is price: 4-4-2 prices start lower than any other high-performance car in America designed for everyday driving!

Vonda, by the way, is not included. But that's no problem for a tiger like you!

Watch for the 4-4-2 . . . coming to your Oldsmobile Quality Dealer's soon!
